

## **DETERMINING LEAGUE WINNER**

Final league standings will be determined as follows: Teams with the most total points will be placed higher in order of finish. If there is a tie in the final standings between two teams, the following tiebreaking procedures will apply:

1. The tie will be broken in favor of the team with the most individual matches won.
2. If a tie still exists, it will be broken in favor of the team with the most individual sets won.
3. If a tie still exists, the team that has won the most total games overall will be given precedence.
4. If a tie still exists, it will be broken in favor of the team with the most direct wins over the tying team.
5. If a tie still exists, a coin toss will be used to determine the winner.

Teams must play all scheduled matches. If a team defaults an entire match during round robin play, none of the matches played, or to be played by that team will count. If teams in contention for the championship have already played the defaulting team in good faith, those matches will stand as played.
